

```
public class Pattern
{
    public static void main(Strings[] args)
    {
        int rows=5, count=0;
        for(int i=1;i<=rows;i++)
        {
            for(int j=1;j>=i;j++)
            {
                count=count+1;
                System.out.print(count + " ");
            }
            System.out.println();
        }
    }
}
```
